

Phil Worland, Founder and President, has over 30 years of experience in optoelectronic management, manufacturing and product design. Phil has held many management positions, including CEO & President VueMetrix (2004-6), Sr. VP of Bandwith9 (1998-2003) and Director of Operations at SDL (1983-1998). At SDL, Phil helped to establish many SDL product lines, including high power 980-nm lasers and laser arrays for pumping EDFAs and solid-state lasers, leading to \$40B M&A of SDL with JDSU, the highest in Silicon Valley history.
